Dear Colleen Sklar and Members of the Expert Advisory Council:

Re: Climate and Green Plan Implementation – Mandate Letter

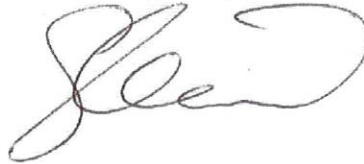

Thank you for your ongoing work in advising the Government of Manitoba on implementation of the Made-in-Manitoba Climate and Green Plan. I am writing to ask the Council to provide its advice and recommendations on the following:

1. Provide input to ensure that the overarching objectives outlined in Manitoba's Climate and Green Plan are fully considered in the development of an energy policy framework for the Province of Manitoba.
2. Provide advice and recommendations on post-COVID-19 green economic recovery for the Province of Manitoba.
3. Review departmental direction on the development of a Provincial Climate Adaptation Strategy for the Province of Manitoba and provide expert feedback.
4. Continue to support the Youth Advisory Council and work with them to develop communications ideas and strategies for reaching youth on Climate and Green Plan topics.
5. Consider emission reduction targets for the next Carbon Savings Account 2023-2027.

In addition to these items, the Expert Advisory Council was directed in June 2019 to support achievement of the provincial 2018-2022 emissions reduction goal. With 2022 approaching, I ask that you review progress to date and seek out information that will help in crafting your recommendation for the 2023-2027 goal.

I wish to express my thanks for your meaningful work to date, and look forward to your continued contributions over the coming months in making Manitoba the cleanest, greenest and most climate resilient province in Canada.

Warm regards,

Sarah Guillemard
Minister
